

In the near future, the exploration and extraction of the LOTOS Group will focus on the Baltic Sea, the Norwegian Continental Shelf and Lithuania.

### **Areas of operation**

## Directions of the upstream segment:

- Poland – the Baltic Sea:
  - stabilising extraction from the [B3 field](#)
  - continuation of the [B8 field](#) development,
- Norway – the Norwegian Continental Shelf:
  - completing the development and the start of extraction from the Yme field
  - developing the exploration licence portfolio,
- Lithuania:
  - finalising the process of acquiring AB Geonafta
  - business integration of the acquired Company.

## Exploration areas

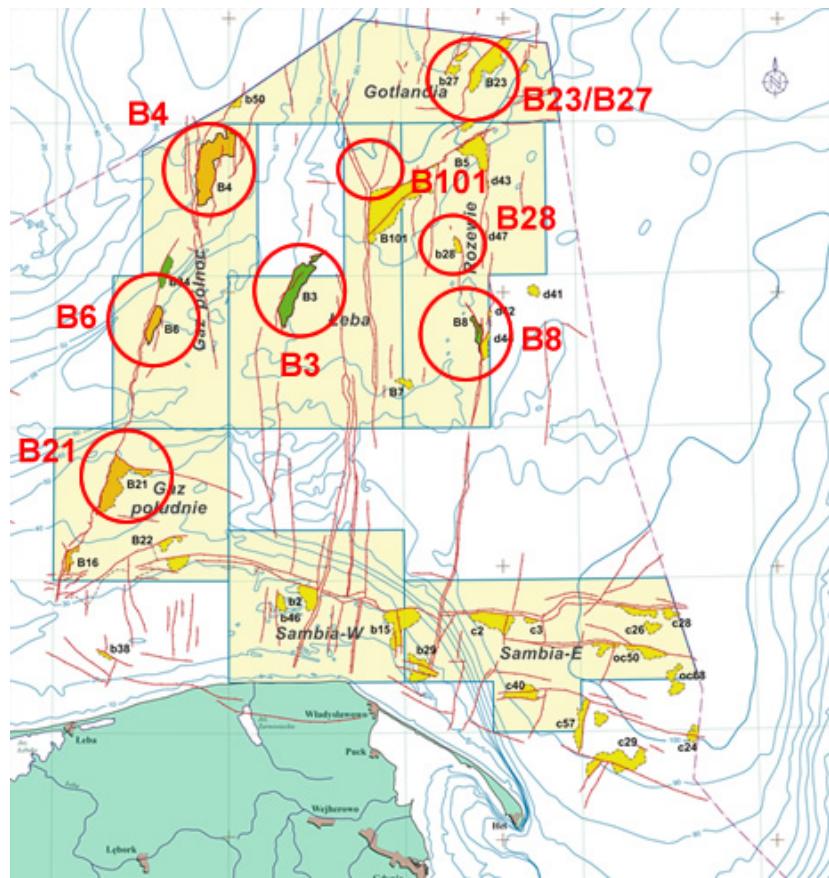

The exploration work within the licences in the Baltic Sea and on the Norwegian Shelf is aimed at discovering new fields of oil and gas that will replace the fields being developed and operated now.

Resources of oil and natural gas of the LOTOS Group according to the classification of the Society of Petroleum Engineers and World Petroleum Council

Category <sup>(*)</sup>	Total in the Baltic Sea and on the Norwegian Continental Shelf	
	oil million tonnes	gas billion m <sup>3</sup>
<a href="#">Confirmed resources</a>	6.4	4.5
Conditional resources	0.8	2.4

<sup>(\*)</sup> The table does not include any prospect resources that may be discovered within the exploratory licences.

## The Baltic Sea: 8 exploration licences

1. South Gas (34/2001/p)
2. North Gas (35/2001/p)
3. Gotlandia (36/2001/p)
4. Łeba (37/2001/p)
5. Rozewie (38/2001/p)
6. Sambia E (39/2001/p)
7. Sambia W (40/2001/p)
8. Wolin (41/2001/p)

4 production licenses in the Baltic Sea:**B3** Field

**B8** Field

**B6** Field

**B4** Field

production resources: 1.2 million tonnes of oil, a production licence valid until 2016

production resources: 3.5 million tonnes  
valid until 2034

production resources: 1.8 billion m<sup>3</sup>, a lic  
condensate) production valid until 2032

production resources: 2.0 billion m<sup>3</sup>, a lic  
production valid until 2032

## The Norwegian Continental Shelf : 9 exploration licences

1. PL 556 (LOTOS E&P)  
LOTOSE&P 50%  
Skele Energy 50%

2. PL 503 (LOTOS E&P)  
License valid until 1/23/2017  
LOTOS E&P 25%  
Skagen44 25%  
4Sea 25%  
Edison SPA 25%

3. PL 498 (LOTOS E&P)  
License valid until 1/23/2015  
LOTOS E&P 25%  
Skagen44 25%  
4Sea 25%  
Edison SPA 25%

PL 497/497B (Det Norske)  
License valid until 1/23/2015  
Det Norske: 35%  
Bridge 30%  
Dana 25%  
LOTOS E&P 10%

4 PL 515 (Rocksource)  
License valid until 1/23/2016  
Rocksource 60%  
LOTOS E&P 20%  
Skagen44 20%

5 PL 455 (Noreco)  
Licence valid until 3/1/2014  
Noreco 50%  
Skele 30%  
LOTOS E&P 20%

PL 316CS/316DS (Talisman)  
Licence valid until 6/18/2010  
Talisman 25% / 40%  
LOTOS E&P 20% / 20%  
Winthershall 10% / 10%  
CS: Noreco 35% / 0%  
DS: Bridge 0% / 20%
